

CHEMRING ENERGETICS UK LTD

QUALITY POLICY

It is the policy of the business to design, manufacture and supply goods and services to the standard needed to fully satisfy the requirements of our customers and to develop new business through safe, and effective application of our technologies and continuous development of our people and processes.

Our commitment to the policy is underpinned, and will be implemented through the following:

- Customer requirements will be fully understood and satisfied.
- Individual, team and managerial accountabilities will include clear responsibility for Quality.
- Quality Management activities will enable the minimising of risk.
- Emphasis will be on process management.
- Management Review will be used as a fundamental tool supported by effective metrics.
- Supplier Quality Management will be consistent, based upon our internal processes and a partnering approach.
- Lifecycle management will be employed to drive continuous improvement in all processes.
- Quality and continuous improvement will be made fundamental aspects of every employee's performance and responsibility.

A large, stylized handwritten signature in black ink, appearing to be "S. Cameron".

S. Cameron
